CREATIVE ARTS ACADEMY

PLAY, LEARN, GROW With US!

Puppetry Workshop

Grades: 2 through 6

February 28 - March 21

About The Class:

Have you ever wanted to be a puppeteer? Join us for this fun-filled puppetry workshop where you will learn about the fundamentals of puppetry! Over the course of four sessions, students will learn how to make puppets and a puppet theatre from common household items, bringing their puppets to life through breath, focus, and weight. They will explore not only how to create puppet stories in their own homes, but how to use storytelling and collaboration skills to create puppet stories with their peers through Zoom.

Sundays | February 28 - March 21 | 1:00 - 2:00PM
