September 30, 2016

Dear Parents and Guardians,

I am pleased to announce the release of a new district wide app from SchoolWay, a leading developer of mobile applications for K-12 school systems and institutions. The free mobile app is available for Apple and Android mobile devices and keeps the entire school community connected to the district's information they need delivered to smartphones and mobile devices.

Understanding the busy schedules of students and parents, the district's official app from SchoolWay allows mobile users to keep track of important district information and receive push notifications from the district, all in real-time via push notification. This mobile app enhances community engagement by providing users with access to information like school closings, athletic and extracurricular activities and district wide information.

The district's mobile app empowers anyone in the community to stay connected with the information they want and need right on their mobile devices.

The release of this app for the district is an example of our commitment to provide our community members district information conveniently and easily, while making it more accessible than ever.

We are excited about how our school's app will lead to a stronger, more connected school community.

Sincerely,

Christopher J. Herdman
Superintendent
